EDUCATION

BTECH.CSE | Princeton Institute Of Engineering And Technology For Women

Computer Science Engineering

2016-2020

Intermediate Education | Kaktiya Mahila Junior College For Girls

MPC

2014-2016

Board of Secondary Education (10th Grade) | Kakatiya High school

2013-2014

EXPERIENCE

Python Developer | DATAPOINT INFO SOLUTIONS PVT.LTD

March 2022 – October 2023

As a Python developer for academic projects, I crafted and maintained robust Python applications to fulfill project objectives. I collaborated with interdisciplinary teams, translating academic requirements into technical solutions. My responsibilities included developing and optimizing algorithms, managing databases, rigorous testing, meticulous documentation, seamless collaboration, and continual learning to ensure efficient and effective project delivery.

PROJECTS

Customer churn prediction using machine learning

- It is a customer-relationship application to predict whether customer will continue with that company or not

Technologies : HTML, CSS, JavaScript, Python, Django, db.sqlite

Duration : 1 month

Team Size : Individual

PORTFOLIO WEBSITE | Showcasing Skills and Achievements

- A static web portal was developed to display the technical profile consisting of professional, personal and contact details.
- Front-End languages HTML, CSS, and Bootstrap was extensively used to develop this web page.

Technologies: HTML, CSS, JavaScript, Bootstrap, django.

Duration: 1 months

Team Size: Individual
